Product Overview

The 483 mm (19") DIN Rail Holder makes the installation of suitable equipment on the already mounted 390 mm width DIN rail possible. It is variable in depth and can be turned 90° up or down to install the components horizontally if necessary. The rear side is equipped with a height variable C shaped cable tray with fixing points for Velcro tape or cable ties. The complete frame can also be adjusted in height (4U brackets are fixed in the rack) to suit individual needs of space.
